

# Large Storage & Embedded Products

Zbit Semiconductor, Inc. - Product Specifications Summary

---

## Large Storage & Embedded Products

Zbit provides niche NAND Flash and related embedded storage solutions alongside its core NOR Flash offerings.

### Product Matrix

Product Type	Specification	Target Market
SPI NAND Flash	SLC NAND Architecture	Set-top boxes, communication equipment, networking
eMMC Chip	Embedded MultiMediaCard	Mobile terminals, industrial computers
DRAM (Niche)	SDRAM / DDR Series	Buffer storage, embedded systems

### Main Strengths

- **Stable Supply:** Partnerships with top global foundries ensure long-term supply cycles.
  - **Customization:** Supports KGD (Known Good Die) and RDL customization.
  - **Strict QC:** Rigorous testing for functionality, data retention, and lifespan.
-
